**You are invited to participate in the
Planning Framework for North St. James Town**

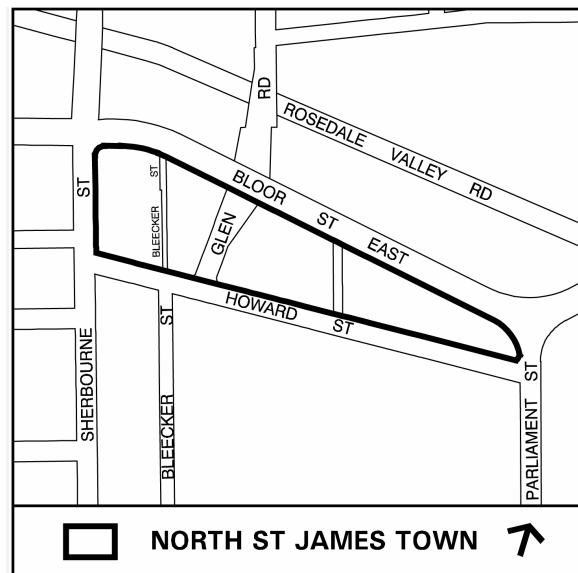

Background

City Planning staff are starting a review and preparing a planning framework report for the area bounded by Bloor Street East, Howard Street, Sherbourne Street and Parliament Street. The study area is commonly called North St. James Town.

The purpose of the planning framework study is to look at whether the existing planning controls are reasonable and permit desirable future development for this area. Community input on places and ideas for improvement, appropriate land uses and desirable forms of development is part of this process.

Purpose of the Meeting

The meeting will provide information about the planning framework, background information and an opportunity to identify key issues for the future planning of this area. It is also an opportunity to express interest in participating in a future working group.
